It is disappointing and especially after what we heard she was saying about the DM.

There has been a million mtgs with her on this! I was venting Marj today that I am sick and tired with mtg with her!

I am a little disappointed, too!

I was my understanding that she was stepping back based on her 2 week vacation. I suspected she would have inquired upon her return on the status. Also I believe Marjory was discussing the Staff Report with her today at the DH meeting and she was copied on the draft sent out on Monday. Go figure

Guys:

Dale West just told me that Marta felt left out of the Central Park solution we are putting together. I told him that she advised us that she would be away for 2 weeks during this time and in fact was planning to be off on the 27th. This really upsets me that we are scrambling to do what Council has asked and she tells another Councillor that we are leaving her out.
